PROFESSIONAL SUMMARY

Software Engineering student at Mae Fah Luang University working across frontend development, UI/UX design, and business analysis — building responsive apps with React, Next.js, TypeScript, and Tailwind CSS, designing interfaces and prototypes in Figma, and translating business needs into documented requirements, user stories, and process models.

EDUCATION

MAE FAH LUANG UNIVERSITY, THAILAND

Bachelor of Engineering in Software Engineering · 2023–2026

TECHNICAL SKILLS

Frontend Development

React • Next.js • TypeScript • Tailwind CSS • JavaScript • HTML5 • CSS3

API & Backend

REST APIs • Axios • Node.js • Express

UI/UX & Visual Design

Figma • Wireframing • Prototyping • User Flow Design • Design Systems • Accessibility • Typography • Responsive Design

Business Analysis

Requirements Gathering • Requirement Analysis • Stakeholder Analysis • User Stories • Use Cases • Business Process Modeling • Functional Requirements • Non-Functional Requirements

Documenting & Modelling

Software Requirements Specification (SRS) • UML Diagrams • Use Case Diagrams • Activity Diagrams • Sequence Diagrams • Process Flow Diagrams

Methodologies & Tools

Agile • Figma • Draw.io • Lucidchart • Jira • Microsoft Office • Google Workspace

PROJECTS

Doi Tung Training Plan Management System (Senior Project)

2025–PRESENT

Full Stack | UI/UX | Business Analysis

- Developed a responsive training management dashboard in Next.js/TypeScript with REST API integration and MySQL data models, and designed its UI/UX in Figma with intuitive navigation and reusable components optimized for desktop and mobile.
- Analyzed manual, spreadsheet-based training workflows to identify gaps, documented requirements and process flows connecting trainers, admins, and participants, and defined business rules for role-based access control.
- [GitHub](#) | [Figma Prototype](#) | [Case Study PDF](#)

2025–PRESENT

MFU International Student Election System

UI/UX | Business Analysis

- Analyzed the election process and documented functional/non-functional requirements, user stories, use cases, and AS-IS/TO-BE process models for a secure web-based platform, backed by stakeholder and risk analysis.
- [Figma Prototype](#) | [Case Study PDF](#)

RateWise — Course & Professor Review Platform

Full Stack | UI/UX

- Built a review platform for students to rate courses and professors — dynamic routing and REST-integrated TypeScript features in Next.js, plus Figma wireframes and responsive UI layouts focused on readability and review submission flow.
